

The Tech

VOL. XXV. No. 59.

BOSTON, MASS., WEDNESDAY, MARCH 14, 1906

PRICE THREE CENTS.

TECH GAINS POINT.

Probate Court Declares Mr. Cilley's Will Valid.

Provisionally speaking, Frank H. Cilley's will in favor of Massachusetts Institute of Technology has been acknowledged valid. The contention raised by Mr. Cilley's brother that the testator was mentally unbalanced was not allowed by the judge of the Probate Court who heard the case. The decision has been appealed, however, and the final verdict will have to be delivered by a higher court.

For the present the bequest amounts to seventy thousand dollars with the probability of twenty thousand dollars more. Its use is limited to the purchase of books, photographs, casts, anatomical models, and statuary for the Walker Memorial Building, and for special lectures on physical culture. Prof. Burton, Dr. Noyes, and Walter S. Barker of Cambridge are the executors.

The Probate Court decision is a strong indication that the Court of Appeals will also admit the will. Though some reason for the appeal exists in that Mr. Cilley was in many ways very unconventional, Tech may look upon the money as practically at its disposal.

MR. FAY ADDRESSES C. E. S.

The Civil Engineering Society held a meeting in 11 Eng. B on Monday, March 12. In the absence of President Patch the meeting was called to order by Vice-President Gerhard. The regular business transacted was the election of fifty-six new members to the Society. Four new names were proposed for admission and laid on the table.

The President then introduced Mr. F. H. Fay, '93, who is at present the head of the Structural Department in the Boston City Engineer's office. The subject of Mr. Fay's talk was: "The Charlestown Bridge and Similar Structures." As Mr. Fay was connected with the construction of both the Charlestown and the Cambridge Bridges his treatment of the subject was of especial interest. The lecture was copiously illustrated with lantern slides of pictures taken during the construction of the bridges.

PROFESSOR THORP LECTURES.

Professor Thorp of the Institute delivered a very interesting lecture recently at Bowdoin College on "Borax and Boracic Acid." Professor Thorp's intimate acquaintance with the subject gave force and weight to his words that were instructive in the highest degree. He had on exhibition many forms of the acid which he carefully explained. The lecture was given under the auspices of the Bowdoin Chemical Club, and was attended by a large number of students.

SHOW GOING TO PROVIDENCE.

Management Adds Performance to Usual Number.
Boston and Malden Plays As Usual.

TO HOLD MORE MEETINGS.

The Civic Club Decides to Hold Debates Twice a Month.

The Technology Civic Club held a meeting at the Union last Monday evening. It was decided to hold the regular meetings twice a month instead of once a month as has heretofore been the custom and, altogether to make the club a vital factor at the Institute. The possibilities of having a debate with the Walker Club were discussed, as well as the advisability of joining the Intercollegiate Good Government Association which is being formed by the largest universities in this country.

It was moved and carried that Monday's debate be postponed until the next meeting and that the Club then and there constitute itself a committee of the whole to discuss and choose subjects for future debates. The committee of the whole reported the following subjects to be debated at each successive meeting in the order here indicated:

1st Meeting. *Resolved*, That the defects in American Municipal Government are due to our Republican Form of Government.

2d Meeting. *Resolved*, That the Students of the Massachusetts Institute of Technology are not fitted properly by their training at that Institution for active and intelligent citizenship.

3d Meeting. *Resolved*, That Municipal Ownership is both possible and advisable in these United States.

4th Meeting. *Resolved*, That the best political development of cities is hampered by State interference.

5th Meeting. *Resolved*, That a Corrupt Practice Act similar to that now in force in Great Britain would improve the political situation in the country.

6th Meeting. *Resolved*, That Congress should grant subsidies to American shipowners.

The Club accepted this report without amendment and, after a short discussion of the *Technique '07* insert, adjourned.

CHESS MATCH.

The Technology Chess Club defeated the Andover team in the annual match played Saturday afternoon at the Boston Chess Club. Each Tech player checkmated his opponent without any great difficulty. The score stood:

TECH.		ANDOVER.	
Lowrie	1	Beinecke	0
Nelson	1	Foster	0
Barnett	1	Stern	0
Henius	1	Reed	0
	4		0

SHOW THE BEST EVER.

Tech Show is being boomed this year as never before. Besides the usual matinee performances in Boston on Thursday and Friday of Junior Week, and the usual performance in Malden, the Show this year will be given in Providence, R. I. The dates are April 26 and 27, matinees, Colonial Theatre, Boston; April 27, evening, Malden Opera House; April 28, evening, Schubert Opera House, Providence.

The Show was booked for the Providence performance only after serious thought and discussion of everything concerned. The management believes that it is a great step in advance for the Show, and success in the undertaking seems to be assured.

The Show this year is far better than any ever performed by Tech men. It is a considerable departure from the shows of previous years, in that it is not an entirely plotless and fanciful play such as has been produced before. The libretto and lyrics were written by George Bryant, '07, whose experience in writing "The Chemical Maid" last year's successful play, has enabled him to produce an essentially modern up-to-date play, treating of college life and college men. All vaudeville features, including dances, have been omitted, and "The Freshman" approaches very nearly a professional show.

There is a fine chance for good acting throughout, and the principals have taken hold of their work in a way that shows that they will not be wanting when the curtain rises. Bryant knew there was no man available to take a leading part, so there are a number of parts each of equal importance. The play is intermingled with about twenty good spicy songs that are bound to make a hit. The music is excellent, and was written mostly by Packard, '07, Coffin, '07, and Moody, '07. The chorus is unusually strong this year and will add materially to the success of the Show.

FRESHMAN FENCING TEAM.

Much enthusiasm marks the training of the Freshman Fencing Team. The team is making very favorable progress under the care of Captain H. J. Lofting and Coach Fournon. Among the men thus far reported E. Chinchilla, G. Weinhausen, F. J. Lange, and H. J. Lofting. F. J. Lange has been chosen manager and expects to obtain several contests with other New England teams. The first meet is being arranged for some time at the end of April.

CALENDAR.

WEDNESDAY, MARCH 14.

4.00 P.M. 1908 Electoral Committee Meeting in 22 Rogers.
4.00 P.M. Tech Show Chorus Rehearsal at the Tech Union.
4.00 P.M. Glee Club Rehearsal at the Boston Y. M. C. A.

THURSDAY, MARCH 15.

1.00 P.M. Institute Committee Meeting in the Trophy Room.
1.30 P.M. Weekly Meeting of the Y. M. C. A. in the Parish Hall of Trinity Church.
4.00 P.M. Rehearsal of Tech Show Principals at the Tech Union.
8.00 P.M. Second of Series of Lowell Institute Lectures by Prof. Peabody, in Huntington Hall.

FRIDAY, MARCH 16.

4.00 P.M. Rehearsal of Tech Show Chorus at the Tech Union.
4.00 P.M. Mandolin Club Rehearsal in 31 Rogers.

NOTICES.

1907. — The dues of the members of the class of 1907 must be paid on or before Thursday.

Institute Committee. — There will be a meeting of the Institute committee at 1 P.M. on Thursday in the Trophy Room.

Electoral Committee. — The Sophomore Electoral Committee will hold its first meeting today at 4 P.M. Every member must be present.

Architectural Society. — The Architectural Society will hold a Smoker at the Union on Monday, March 19, at 8 o'clock, before which Mr. P. S. Peabody will speak on "Architectural Sketches."

Y. M. C. A. — The Technology Y. M. C. A. will hold its regular Thursday meeting in the Parish Hall, tomorrow at 11.30. The delegation to the recent Y. M. C. A. Convention at Nashville will report on the meetings of the Convention.

SPEAKS ON SHODDY.

An appreciative audience attended the 620th regular meeting of the Society of Arts in 22 Walker. The speaker of the evening, Mr. Henry G. Kittredge, editor of the *Textile American*, chose for his topic of discussion, "Shoddy: The History of a Woollen Rag." The lecture was interestingly illustrated by numerous lantern slides showing the different changes the woollen rag undergoes in the manufacture of shoddy goods. The lecture proved of special interest to students studying microscopy and textiles.

Y. M. C. A. ELECTIONS.

The balloting for Y. M. C. A. officers resulted in the election of T. C. Keeling, '07, President; L. W. Brock, '07, Vice-President; D. G. Robbins, '07, Treasurer; W. H. Medlicott, '07, Secretary. These men will hold office until March 1907.

The Tech

Published every Monday, Wednesday and Friday during the college year (from September to June), by students of the Massachusetts Institute of Technology.

Entered as second class matter October 6, 1904, at the post office at Boston, Mass., under the Act of Congress of March 3, 1879.

Wednesday, March 14, 1906.

We don't know why the front door to Rogers is bolted, but we do know that we have received some awfully hard bumps.

When you hear remarks from the side lines (*i. e.* around Rogers corridor) by some unkind and unsympathetic subscriber that today's TECH was "bum," no news in the last one, and that the next will lead them all in this respect; when you hear that person casually ask, "*Pourquoi est-il?*" just tell him "L-e-n-t—nothin' doin'."

The action of MacMulkin the Florist in presenting the Tech Union with four big hanging ferns cannot but be appreciated by Tech men, and shows Mr. MacMulkin's appreciation of the business which the students have always given him. The class banners have been rebung and these together with the fresh plants give the Union a cheerful appearance. THE TECH extends to Mr. MacMulkin the thanks of all Tech men for his kind action.

PROF. TALBOT ENTERTAINS SENIORS

An informal dinner was given at the Tech Union last night to the Seniors in Courses V and X by Professor Talbot. He stated that he had given the dinner with the idea of making closer the ties between the Faculty and the students about to graduate, urging them to keep in close touch with their professors after graduation informing them of their progress and intentions.

In speaking of teaching as a profession he pointed out its advantages, mentioning the comparative freedom as to time, the possibility of making one's life work what he would wish it, and the possible influence upon students for good. Success he thought was due to a combination of three attributes—honesty, thoroughness and energy.

Mr. Cabot was called upon to tell what he knew of the problems which confronted the graduate in chemistry. He thought that egotism was the greatest obstacle to success—that the moment we think we're there we fall behind. England, when she stood above all countries in Chemistry, for lack of a small sum of money allowed Hoffman to go to Germany and make it the leader in chemical industries. Dr. Whitney of the Research Department of the General Electric Company spoke on his practical experience with college men. He believed that the essential traits which made for success were character, brains and interested effort.

From the Faculty and instructing staff Professors Moore, Gill, Walker, Noyes, Pope, and Mrs. Ellen H. Richards were present.

COLLEGE NOTES.

Princeton has thirty-two baseball games scheduled for this spring.

Ludwig Fulda's "Jugendfreunde" was presented by the Conried German Company at Cambridge, under the auspices of the Harvard Deutscher Verein.

The undergraduates at Wesleyan held a mass meeting Saturday and pledged \$55,000 toward building a new dormitory to replace "North College," which was burned.

READING NOTICE.

A Springfield firm has positions for Tech men, paying \$2.00 per day and upwards according to ability. See A. C. Nichols, '08, at Cage any day 1.05-1.15 for appointment with manager.

INVENTOR.

The Technical Magazine for all Technology Students. Something different from all those you have seen. Instructive, and written by men of authority in their special lines. Contributors are Prof. Geo. B. Haven, M. I. T. Mechanism, W. F. Hillebrand, Analytical Chemistry, the Telautograph, etc. 5 cts. at newsstands, 50 cts. per year.

AT THE THEATRES.

Tremont Theatre.

The reception given to Mrs. Leslie Carter's revival of "Zaza" at the Tremont Theatre has been so cordial that that famous play will be continued the coming week, the fourth and last of the distinguished actress's stay in Boston. The five acts of "Zaza" are laid partly in a little provincial town of France, and partly in Paris, and they are all staged with that realism and care for dramatic effect of which Mr. David Belasco is a consummate master. Immediately following the close of Mrs. Leslie Carter's engagement, Mr. Belasco will present at the Tremont a grand revival of his famous drama, "The Heart of Maryland."

COLLEGE NOTES.

Foster Rockwell will be head coach of Yale's team next fall.

Regulations to purify class and college elections have been adopted by Princeton and Williams.

During their Junior week, the students of Brown University will present "She Stoops to Conquer."

Columbia University plans to have a great athletic field on its North River water front. Around it will be covered stands with a seating capacity of 35,000 persons.

Andrew Carnegie has offered \$20,000 for the enlargement and improvement of the chemical buildings at Colgate on condition that the University raise an equal amount.

The University of Heidelberg has recently secured a new building for its library which contains more than 700,000 volumes. Some twenty miles of shelf space is required to hold the books.

Dartmouth has been admitted into the Intercollegiate Athletic Association and will compete at the meet in Cambridge this spring. She will also compete in a dual meet with Harvard in May.

Johns Hopkins University is very seriously considering lengthening its undergraduate courses from three to four years. It will be remembered that Johns Hopkins was the first to shorten the courses.

A debate held at Dartmouth between Dartmouth and Brown was won by Brown, which had the negative side of the question, "That it would be for the best interests of American colleges that no money should be expended for the maintenance, coaching, traveling expenses, and equipment of athletic teams engaged in intercollegiate contests, except from the voluntary bona fide contributions of the student body."

American Rhodes' scholars captured three firsts and one second in the Oxford field sports. In the high jump P. M. Young, of South Dakota, was first, making 5 feet 6 1/2 inches. Young was first also in the broad jump, clearing 22 feet. Warren E. Schutt, of Cornell University, was first in the mile run. Time, 4 minutes 28 3/4 seconds. Albert M. Stevens of Willimantic, Conn., took second place in the hammer throwing contest.
